Setup New Laboratory Codes in Medical Director 2 and 3

If the Laboratory Code does not appear in MD, it can be added manually by:

1. In MD with an MD administrator password (usually the doctors password) go to Main Screen → Options → Lists tab.
2. Select Pathology Requests
3. Enter the New Lab Code in the box beside to Add and then Click Add
4. The new test code will appear in the "User defined items" box.
5. Next time the Dr. Print a Pathology Request the Test Code will visible in the “Available Tests” as shown below.
